WEEK**

**GALAPAGOS SEED GRANT PROGRAM
2023-2024 Q&A**

WHEN:

October 24, 2023
3:00 pm - 4:30 pm

WHERE:

Dey Hall, Toy Lounge
200 South Rd, Chapel Hill, NC, 27514

Please join us to hear from UNC researchers currently conducting projects in the Galapagos. These awards are designed to foster the development of research partnerships and projects in the Galapagos Islands of Ecuador, with a focus on the Galapagos Science Center, a jointly developed and supported facility of UNC-Chapel Hill and the Universidad San Francisco de Quito. Grants are to UNC faculty to undertake preliminary and/or exploratory research. Preference will be given to applications from junior faculty and for new project initiatives. We are seeking applications from across the university. The Galapagos Initiative emphasizes the study of the social, terrestrial, and marine sub-systems in the Galapagos Islands of Ecuador and their integration through a focus on population, health, and environment.
